IOM is addressing the most urgent needs of the refugees and migrants who fled war in Ukraine to Poland. Activities will take place in the collective shelters. Project will include delivering the Polish language classes at different levels in order to facilitate the integration into the labour market and social inclusion for adolescent and adult beneficiaries.

#### 6. **Expected Results**

IOM, in collaboration with the Implementing Partner will deliver the Polish language classes for the beneficiaries ( 16+ years old) residing in the collective shelters in Podkarpacie and Małopolska.

The language classes for children will be organized if such a need is identified at the collective shelter.

In-person language classes should be delivered to 200 beneficiaries. The total duration of the language classes in each shelter is 4 months, which should cover two levels – a 2-months (60 hours) course per level and 120 hours in total. IOM strongly encourages the inclusion of persons with disabilities into Polish language classes.

Upon starting the classes all the beneficiaries will take an initial test to assess their level of language proficiency according to the Common European Framework of Reference for Languages (CEFR). Depending on the results of the test, beneficiaries will be referred to an appropriate Polish course.

Each group should amount maximum of 15 enrolled students. Upon successful completion of an educational program beneficiaries will take the final examination and receive the certificates confirming the completion of the language classes at a specified level.
